

## SHE JUST KNEW IT

JESSIE LINCOLN BECKWITH'S HUSBAND IS A STAR.

Inspired by the presence of his wife, who watches the game from the side lines, Robert T. Lincoln's Superbison Son-in-Law, kindly assisted by the Iowa Wesleyans, scatches glorious victory from the jaws of the Keokuk Medicals—Pennsylvania Eleven Getting Into Trim—Tod Sloane Again.

Mount Pleasant, Ia., Nov. 17.—"Oh, I knew he could do it!" It was Jessie Lincoln Beckwith whose exclamation of delight caught the attention of the big crowd out to witness the football game between Iowa Wesleyan and the Keokuk Medicals. For Warren Wallace Beckwith had just made a forty-yard dash around the left wing of the big Meds and scored the first touchdown for Iowa Wesleyans. Beckwith was playing the game of his life, and, inspired by the presence of his young bride, put up a game of football that has never been equaled in this city.

Whether the rest of the team was inspired by the same fact is not known, but the big fellows from Keokuk, flushed with recent victories and averaging 20 pounds per man, were not. Iowa Wesleyan, went down to defeat. At the end of the game the score stood 48 to 0 in favor of the Iowa Wesleyan, and over half of the points were gathered in by Beckwith alone. There was a big crowd of enthusiastic spectators, but none more so than the daughter of ex-Secretary of War Robert T. Lincoln.

During the first part of the game she watched the struggle from a carriage, but as the excitement grew more intense she left the carriage and with several girl friends followed along the side lines the struggling players. Once when Beckwith was temporarily disabled she pushed her way in to see how badly he was hurt, and, using the entire game she saw her last sight of him.

The heavy line of the visitors proved to be somewhat of an obstruction to the home team, most of the playing devolving on the half-backs, Beckwith and Huston. Beckwith was given all the work he wanted. His play was brilliant and most effective.

At the end of the game he was lifted to the shoulders of the howling mob of enthusiasts and carried off to the field. The day had been a quiet one for the Beckwiths. At noon they lunched with Senator Harlan, grandfather of the bride. Young Beckwith had declined to play, but it was said that at lunch the senator requested Beckwith to play.

The senator was formerly president of the college and takes great satisfaction in the work of the team. He stated that when he learned that on account of the comparatively light weight of the home team, the absence of Beckwith would imperil the success of the team, he requested his new grandson-in-law to lay aside his dignity and battle once more for the glory of the I. W. U. Beckwith consented and played his star game.

Mrs. Beckwith rode out to the field in the family carriage and was accompanied by her mother-in-law, Mrs. Beckwith.

THE PENNSYLVANIA ELEVEN. Philadelphia, Nov. 17.—Following the custom which has prevailed for the past four years, the Pennsylvania University football eleven, accompanied by a dozen substitutes, left Broad street station this morning in a special car for the Delaware Water Gap. Coach Woodruff believes there is nothing so beneficial to a football player after the finishing touches have been put on as a change of scene and the fresh mountain air.

With the exception of Quarterback Weeks and Right-end Dicke, the Pennsylvania eleven is in first class condition. Weeks is suffering from stomach trouble but was able to go through the practice yesterday. Dicke's knee is still giving him some trouble and while he will almost surely start the game with Harvard, his chances for continuing throughout are very slim, as the first scrimmage may throw the troublesome cartilage out of place. He is an able substitute, however, in Hedges. There will be no severe practice at the Water Gap. The men will take a run across the mountain each morning and then line up for signal practice and passing the ball.

## RUSH FOR TICKETS.

Philadelphia, Nov. 17.—The advance sale of tickets for the Harvard-Pennsylvania football game, which takes place on Franklin field on Saturday, has been unprecedented. The indications are that over 25,000 persons will witness the great struggle. Tickets for the north and south stands have been entirely disposed of, and the seats for the two end stands

## The Strength of Nature.

According to the ancient mythology, when Hercules wrestled with Aspidochelone, every time he was thrown he jumped up stronger than power from earth. Hercules, every time he was thrown, he jumped up stronger than power from earth. Hercules, every time he was thrown, he jumped up stronger than power from earth.

only remedy to really cure him of his natural remedy. It must work according to nature and bring him right in touch with Nature. And this is the only remedy to really cure him of his natural remedy. It must work according to nature and bring him right in touch with Nature.

In these conditions the most perfect, natural strength builder is Dr. Pierce's Golden Medical Discovery. It acts directly upon the natural nutritive processes, and creates solid, permanent strength and vitality in the same way that Nature creates them. It capriciously the stomach and liver to vitalize the circulatory system, and centers with pure, healthy blood. This is exactly Nature's way of curing nervous exhaustion, debility, insomnia, and neuritis. During the past few years, Dr. Pierce's medicines have become recognized standard remedies throughout the world. His "Pleasant Pellets" are a perfect and permanent cure for constipation.

Sanctified by the faith of the Corps Christi, N. K. Fairbank, writes: "This is to tell you that I have been ill for many years, and finally cured by your medicine. Golden Medical Discovery and Pleasant Pellets. I was completely cured after taking the medicine."

## KAILUANI AT HOME

HAWAIIAN PRINCESS CAUSES A FLUTTER IN HONOLULU.

These Loyal to Her Pelt Her With Poles as She Trips Down the Gang Plank—Her Visit Said to Have a Significant More Matrimonial Than Political—Yankee Warship Will Stay in Hawaiian Waters Till All Questions Are Settled—Story of Idiotic Devility in China—News of the Orient.

Honolulu, Nov. 16.—(Via San Francisco, Nov. 17.)—The arrival of Princess Kaiulani caused a flutter yesterday. A large crowd of people, principally natives, greeted her at the wharf. As the princess walked down the gang plank, the Hawaiians covered her with flowers. She was driven to her home where a reception was held last night. It is understood that Kaiulani will remain here several months.

A. S. Clegg, her father, is quoted as saying that his daughter's visit has no political significance. If it had, it would not be policy for him to admit the fact, as the young woman is now receiving a substantial pension from the Hawaiian government—enough to support herself in comfort. If the government imagined for a moment that Kaiulani was plotting, her pension would be stopped immediately.

Rumor has it that the princess is here to be married. The groom is said to be George Davies, a son of T. H. Davies, the guardian of the young woman. George Davies and his father arrived a few days in advance of the princess. The elder Davies is a very rich man and all his wealth will go to his two sons. The Davies homestead has been remodeled recently, which is very significant to many people.

The United States steamer Baltimore arrived on the 7th, eight days from San Francisco. She brought the sailing orders of the Yorktown, the latter leaving on the day following. The Baltimore is here to remain for an indefinite period, probably until the differences between Japan and Hawaii are settled and congress has come to a vote on the annexation question.

W. J. Kenny has succeeded the late A. S. Hays as British consul general for Hawaii. Mr. Kenny arrived from the Orient yesterday. He has been connected with the diplomatic corps for twenty years and comes from Tahiti, Formosa, his last post.

Senator Pettigrew of South Dakota arrived from Yokohama yesterday. He will remain here until the 19th, posting himself on Hawaiian matters.

BY THE EMPRESS OF CHINA. Victoria, B. C., Nov. 17.—The steamship Empress of China has arrived here from the Orient. Among her passengers was Bishop Hoffman of the Catholic church. He says that discoveries are being made in Chantel, in northern China. The Chinese government, to encourage mining, has commenced the building of a railway from Hankow to Peking, passing through a richly mineralized country.

The Japanese government has demanded the sum of \$200,000 in gold from Hawaii, by way of indemnity in connection with the emigration affair.

FOR SWINDLING WOMEN. Arthur Blair Moody, a Sweet Young Man, New York, Nov. 17.—Arthur Blair Moody, a swell young man of New Haven, Conn., is under arrest in this city, charged with swindling three young women, two of them heiresses of New York and one a famous Australian actress, temporarily in New York. Moody is charged with inducing the women to invest in a scheme of his, and his mother is a physician there.

Miss Rosamond H. Owen and Miss Mary Van Buren Vanderpool, both of whom hold high positions in New York society, are two of the victims. Upon convincing them that he had met with an exceptionally favorable opportunity to secure for his friends some subscribed mining stock that the subscriber could not pay for, he secured \$5,000 in cash and a negotiable bond for \$17,750 from Miss Owen, and a \$1,000 United States bond from Miss Vanderpool.

This occurred in March last, and when the young ladies discovered their friend had swindled them, the police were notified and Moody's indictment here followed. He is out on bail in Connecticut and is fighting the movement for extradition.

Miss Ellis Rowen, the artist in water colors from Australia, met Moody at the Buckingham hotel and ultimately contributed to his scheme of investment in a scheme unfilled by the young man. Her money is gone, as well as thirty pictures which she entrusted to Moody for him to raise money upon to put into the investment.

## FIRE IN THE SMOUGLER MINE

Satisfactory Progress Made in the Attempt to Quench It.

Aspen, Colo., Nov. 17.—The fire in the Smougler mine is still burning, but Manager Hallett says satisfactory progress is being made in the effort to quench the flames. The volume of gas issuing from the shaft is not so great as yesterday but the smoke has increased. This is regarded as indicating that the fire has reached the water-soaked timber and is smoldering.

Eleven men were overcome by gas in the Mollie Gibson and Della S. mines last night, but all were resuscitated. Denver, Colo., Nov. 17.—A special to the Republican from Aspen, Colo., says: While it is generally conceded tonight that there is but little danger of the Smougler fire spreading beyond the large slope where it is now burning, the indications for a lingering fire that may extend into months is growing. Since the fire started Sunday morning, the management are now confident that the seat of the trouble is located somewhere between the seventh and eighth levels, but just where they are unable to say. The cribbing in the slope between these two levels is 300 feet and 100 feet thick, filled solid with waste.

All efforts to locate the fire have now been abandoned, and the fire is being carried on in a general way between the seventh and eighth levels with water from above and steam from below. At 1:30 both the steam and water were turned off for an examination. To all appearances no progress had been made. There is an increase of smoke in the vapor, which is looked upon as an indication that the fire has reached some of the water-soaked timbers and is smoldering rather than burning. The gas issuing from the shaft is not so dense.

This afternoon Manager Hallett, Mine Inspector Fred H. Nye, Master Mechanic Alexander Carsten, Foreman Carney and two miners had a miraculous escape from death while examining the mine. All but two of the men were overcome by gas on the eighth level and were with great difficulty saved from death by suffocation.

All but two of the men were overcome by gas on the eighth level and were with great difficulty saved from death by suffocation.

## ISSUE MUST BE NEW

EX-Secretary WHITNEY DOUBTFUL OF THE DEMOCRACY.

There Must Be a Harmonizing of the Present Discontent Elements of the Party in Order to Succeed—The Wish Being Father to the Thought, Mr. Whitney Thinks Something Will Happen to Eliminate the Silver Question—Belief on the Republican Administration to Furnish something to Fight Over.

New York, Nov. 17.—The Journal and Advertiser says today: In an interview last night William C. Whitney says:

"If the Democracy be true to itself it will resume control of the nation in 1900."

Mr. Whitney was in England on election day; he said he knew too little of election results to discuss the situation; but he conceded the improvements in Democratic conditions and declared the outlook hopeful for the party.

"Restoration of the Democracy to power," he said, "depends on the party itself. If harmony comes it will win. I should say that the tendency of Democracy thought is toward a restoration of harmony. To that extent the status of the party as a political organization is improved."

"Does the complete restoration of harmony in the Democratic party depend upon a change in the issues upon which its national battle was fought last year?"

"I believe the issues will be changed," replied the ex-secretary.

Mr. Whitney declared himself out of politics and would go no deeper into an analysis of election results. He did not say, however, that he would not take part in the future battles of the state and national Democracy. Although he has held aloof from the councils of the party since the campaign of 1896, his friends understand that his interest in its success has not waned and that he may resume his former share in its leadership when the occasion is timely. And that depends on what is done with the silver issue.

While the Democratic platform and line of campaign in Greater New York were laid down in complete independence of the Gold Democratic faction to which in 1896 Mr. Whitney belonged, he was understood to have approved the strict adherence to local issues and the waiving of the silver question by the party managers.

It now appears that he is, in common with many other party leaders, believing that the silver question will not be the dominant issue in 1900 and that the party division resulting from it in 1896 will not exist in the next national campaign.

The former secretary of the navy expects the present Republican administration to create new issues before 1900 which will give the Democracy its opportunity for a more aggressive and harmonizing campaign than it has had on the silver issue.

Mr. Whitney declined to discuss the new Democratic administration of Greater New York, and would say nothing as to the probable policy or the appointments of Mayor-elect Van Wyck.

## SOVEREIGN'S REE IS ALL RIGHT

For President if Bryan Does Not Run For Vice President if He Does.

Louisville, Ky., Nov. 17.—A delegate to the general assembly from New York City, and one of the most prominent in the body, said this evening to the Associated Press representative that Mr. Sovereign beyond a doubt would be a candidate for the nomination for president in 1900.

"If," he said, "Mr. Bryan insists on making a fight for the nomination, Mr. Sovereign will not oppose him, for the two are warm friends. In that event Mr. Sovereign will become a candidate for the nomination of vice president. It was natural for Mr. Sovereign to deny the report, as he did not care for the capital to interfere this early in his campaign and thus greatly injure him before the fight was fairly on."

## KNIGHTS OF LABOR ADVOCATE

Last Day Sees a Large Number of Vigorous

Louisville, Ky., Nov. 17.—The general assembly of the Knights of Labor, which has been in session in this city since the early part of last week, completed its work today and adjourned until the second Tuesday of next November, when it will convene again in Chicago.

Today's proceedings were the most interesting and spirited of any since the session began.

The most important matter taken up at the morning session was the suggestion of the adoption of a constitution governing the degree of the Philadelphia Stone, which is conferred upon every delegate to the general assembly. The suggestion met with the approval of the assembly and a constitution was submitted and accepted. Under the conditions of the instrument chapters will be formed wherever Knights of Labor organizations exist and members will be allowed to take the degree who have been in the order a certain number of years and who have rendered efficient services.

At the afternoon session resolutions were passed endorsing the late Henry George as one of the ablest advocates of labor's cause, in whose death the workmen have lost one of their most sincere friends.

Resolutions were also passed commending the services of Past Master Workman Sovereign.

Other resolutions were then adopted as follows: Declaring unequivocally in favor of the independence of Cuba; condemning the alleged base action of the deputy sheriffs in the Hoxton affair and calling upon the government to take such steps as will bring the offenders to justice; and denouncing the Cleveland administration for "hatching" the sale of the Union Pacific railroad and the present administration for carrying out the plan.

## MEDICAL TREATMENT ON TRIAL

To Any Reliable Man.

Marvellous application of one month's treatment of the lower end of the spine with city address required, by the famous medical expert, Dr. J. C. Williams, of New York City, who has cured thousands of cases of rheumatism, sciatica, neuralgia, and other painful conditions of the lower end of the spine. The treatment is simple, and the results are marvellous. The cost is \$1.00 per month, and the cure is guaranteed.

Springfield, Mass., Nov. 17.—John Cotton Dana of Denver, Col., was today chosen librarian of the Springfield city library. Mr. Dana was president of the American Library association in 1896, and has been in charge of the Denver public library for eight years.

Appleton, Wis., Nov. 17.—Local paper manufacturers have received notice of the most marked advance in prices that has been noted since the war. The Garden Paper Company has announced an increase of 1-4 cent per pound on all paper, which will bring the price of the 24 lb. sheet to 1.13 cents.

Buffalo, N. Y., Nov. 17.—The Buffalo Medical Association has decided to hold its annual meeting at the Buffalo Hotel, on Friday, November 19th, at 8 o'clock P. M.

Trenton, N. J., Nov. 17.—Justice Van Sickel, Dixon and Collins, of the supreme court, today denied the application for a writ of habeas corpus in the case of a woman who had been confined in the asylum for the insane.

## The Woman Who Uses

GOLD DUST

Washing Powder finishes her work as fresh and bright as her house is clean.

Largest package—greatest economy. The N. K. Fairbank Company, Chicago, St. Louis, New York, Boston, Philadelphia.

## TO END HER WOES

WOMAN CALLING HERSELF A RUSSIAN COUNTESS SUICIDES.

She Appears at a Police Station in Edinburgh and Reports That She Has Been Robbed—While the Name She Gives Is Being Entered She Unobserved, shoots Herself Through the Head With a Revolver—Some Hints at Her Tragic Past—It Was a Kansas Man—Crime News.

Edinburgh, Nov. 17.—There was a tragic occurrence in a police station here last evening. A woman, apparently about 20 years of age and fashionably dressed, but in the deepest mourning, who said she was the Countess Teresa Ulfeld, a Russian, adding that she had come to Scotland a fortnight ago, via Copenhagen, and that she was in mourning for her dead lover, complained to the police officer on duty that she had been robbed of her purse containing a large sum of money. The countess was apparently in great distress and as the officer turned around to enter her complaint in the station blotter she shot herself through the temple with a revolver. Only a few shillings were found on her person. An examination of her rooms in the hotel where she had been stopping developed the fact that all her correspondence had been torn up in such small pieces as to render it almost utterly impossible to reconstruct it. She had given her address as the Chateau de St. Marie, Moscow. Two photographs were found among her effects. One was that of a young officer in the Russian army and was signed "Alexander Romanoff." It is supposed to be that of her fiancé. The other photograph was that of a Spanish officer who had visited the countess since her arrival in Edinburgh. The hotel people say that the deceased countess was well educated and had evidently been accustomed to move in the best society.

ROBERT SIMS HANGED. Louisville, Ky., Nov. 17.—Robert Sims, colored, was hanged today at Jonesboro, Washington county, Tenn.

Sims shot and killed Walter Galloway July 3 last and was convicted of murder in the first degree. He recently made a confession, and died expressing the hope of salvation. The execution was private but on the hillside surrounding the enclosure were large crowds.

When Galloway called on Miss Effie Boring, to whom he was engaged, Sims, an employee on the Boring farm, was asked to put up Galloway's horse. Sims refused to do this on account of an old grudge. While Galloway was at the barn stabling his horse Sims got a gun. Miss Boring ran out to warn her lover. No sooner had she met Galloway than Sims fired and the young man fell, almost into Miss Boring's arms.

Sims was followed for many days before he was captured, and narrowly escaped lynching twice. So great was the excitement produced by the death of Galloway that Miss Boring was nervously prostrated. Continued worry led to a fatal illness and after several days of intense suffering she died.

## WHO "H. MAY" WAS.

St. Louis, Mo., Nov. 17.—The identity of the man who last week registered at the Globe hotel as H. May and committed suicide has been established. His real name is H. A. Mitchell and his home was in Salina, Kansas. The deceased left a wife but no children. Mrs. Mitchell is supposed to be in Denver and has a brother-in-law in Paola, Kansas. The latter has been advised of his brother's death and the body, which was to have been buried in the potter's field, today, will be held for his orders. Mitchell was formerly employed by the Hamilton-Brown shoe company, but drink got the better of him.

## KILLED EACH OTHER.

Cincinnati, Nov. 17.—A Harboursville, Ky., special to the Times-Star says: Reports received here of a fight which took place nine miles from this place at the site of Kinn and Clay counties between John Smith and Fred Harkle over a debt. Both parties drew revolvers at the same time. Both fired instantly and the two men were dead in an hour. Fred Harkle, while trying to part them, received a serious wound.

## WOMAN'S HEAD FOUND.

St. Paul, Minn., Nov. 17.—Chas. Nelson has found the head of the unknown woman whose body was found in the woods near White Bear Monday night, and today said he hoped to establish her identity. She is thought to have been a member of a dancing party in that neighborhood about a year ago and that party is followed by the condition and location of the body.

## A \$7.00 GIVEN FREE

BOOK OF EUGENE FIELD'S POEMS.

Each copy of the book of Eugene Field's poems is given free to the first person who writes to the publisher, The N. K. Fairbank Company, Chicago, St. Louis, New York, Boston, Philadelphia.

The book is a beautiful volume of 100 pages, containing 100 poems by Eugene Field. It is a perfect gift for children and young people. The book is available in English and Spanish.
